## NYLON USA OUTDOOR FLAGS

### EMBROIDERED STARS AND SEWN STRIPES

Recognized as America's #1 choice of USA Flags. Expertly crafted using heavyweight bunting made of 100% nylon. These nylon flags offer lustrous beauty, superior wear plus excellent flyability even in the slightest breeze. Its popular price combined with its reputation as the true all-weather flag make it an outstanding value.

## POLYESTER USA OUTDOOR FLAGS

### EMBROIDERED STARS AND SEWN STRIPES

The spun polyester material that we use for USA Outdoor Flags is produced with a Jet Dying process. Our Jet Dying process forces the dye molecules into the fabric at 265° F. Polyester materials which are dyed with a beam process cannot attain temperatures over 210° F, thus producing a ring dyeing effect. The dye molecules are forced into the substrate and subsequently dye only the outermost parts of the fiber. If you are looking for a flag that exhibits superior wet fastness, light fastness and a more luxurious hand, then these Flags are your only choice.

Item	Item Description	Price
